The shaft on the Ruffles-Penning ton lease is down over twenty-five feet. The contract calls for 50 feet and when finished Mr. Ruffles stated, they will be a very short distance from the hanging-wall of the main ledge, where they expect to find the high grade ore, as shown on the surface. Assays on the surface ran as high as \$68-but no assays were mode of the high grade. So far the material taken out of the shaft shows values that are said to range from \$2 to \$10, with improvement
